PRICING 2025

To our valued wholesale customers, Xylem and the R.D. Bitzer Company has implemented a general price increase effective October 13th, 2025. Bell & Gossett, Hoffman, and McDonnell & Miller will incur this increase.

Thank you for your support and we wish you a prosperous 2025.

Sincerely,
John Bitzer, John Boyle, & Mike Barchard

BoilerMag Magnetic Dirt and Air Separator

- Dual Flow Technology – filters twice on one pass
- Includes automatic air vent
- Guaranteed no block
- Removes both magnetic and non-magnetic debris
- Easy access for chemical dosing
- Features 1" NPT threaded isolation valves (1.25" NPT adaptors included)

Sizes available through 12"

Part No	Description	Inlet/Outlet	Single Lot	12 Lot
BM/R	"BoilerMag Residential - 1.0" npt with 1.25" adaptors"	1.0/1.25"	\$179.00	\$160.00
BM/RP	1" Press Fittings	1.0"	\$179.00	\$160.00
BMXL/NPT	Boilermag SS – 1.5" NPT (28gpm)	1.5"	\$647.00	\$579.00

INTRODUCING ESR Electrolytic Scale Reducer – 3/4" – Minimizes limescale buildup, zero maintenance \$64.75

BoilerMag Chemicals

High Performance chemicals for heating system protection and cleaning play a vital role in controlling and removing iron, calcium, and other debris such as excess flux.

Helps prevent –

- Inefficient boiler performance
- Premature boiler failure
- Corroding radiators leading to pin-hole leaks
- Leaking and noisy pumps
- Excessive boiler noise
- Radiator Cold Spots

Part No	Description	Single Lot	12 Lot
BM1/P	Boilermag Inhibitor 1 Pint (500ml) (Treats 25 gal.)	\$17.00	\$15.00
BM1/G	Boilermag Inhibitor 1 Gallon (Treats 200 gallons)	\$81.00	\$71.00
BM3/P	Boilermag Cleaner 1 Pint (500ml) (Treats 25 gal.)	\$17.00	\$15.00
BM3/G	Boilermag Cleaner 1 Gallon (Treats 25 gallons)	\$86.00	\$76.00

Goulds "Sump Thing"

1/3 HP 115/1/60 10 AMP 1.5" Discharge

- Premium quality pump to keep your basement dry
- Reliable Mechanical switch coupled with solid float for dependable performance
- Cast Iron Motor Housing allowing for optimal heat dissipation
- Approved for Residential use (CSA/CUS Listed).
- Premium Mechanical Seal design provides superior protection against sand and abrasive damage (Silicon Carbide/Carbon/BUNA)
- Engineered motor designed for peak hydraulic performance without overloading.
- Suction Strainer encompasses entire base – designed to reduce debris entry
- Corrosion resistant hardware for lifetime use
- 2 year warranty

ecocirc+ 20-18 Stainless Flanged 60B0B1004	\$364.00
ecocirc+ 20-18 Stainless Union 60B01005	\$365.00

ecocirc 20-18 Features

- Maximum of 20 feet of head or 18 GPM
- 70W maximum power
- 3 modes – proportional pressure, constant pressure, or adjustable speed control
- Fluid temperature: 14-230°F
- CircGuard™ – complete integrated system protection
- Automatic air purge to remove any air trapped in the pump
- One turn knob and multicolor LED display for easy reading and setting of the pump
- Check valve included in box
- Insulation shell included

ecocirc+ 20-18 Features

The ecocirc+ 20-18 comes with all of the standard features found on the ecocirc 20-18 *plus* the following premium features:

- Bluetooth communication+
- 0-10V input+
- Temperature control+
- eAdapt autolearn and Night Mode+
- Digital display+

ecocirc XL

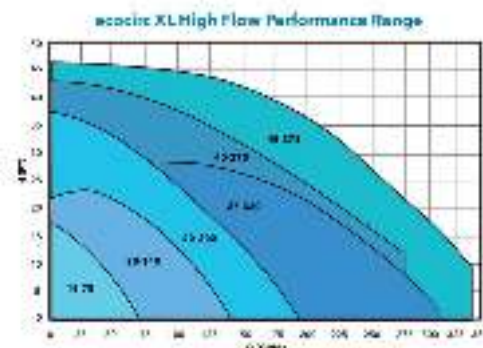

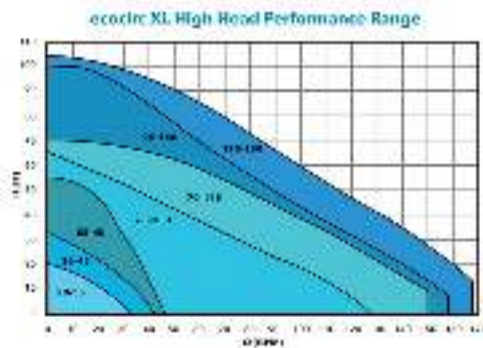

**NOW AVAILABLE
in 3 Phase!**

The ecocirc XL is a highly efficient circulator that enhances commercial hydronics systems with superior quality and dependability. State-of-the-art hydraulics advanced motor design, intelligent controls, and smart communication capabilities highlight expert engineering across a broad range of HVAC and plumbing applications.

Features and Benefits

- Economical operation
 - Efficient ECM motor
 - Optimized hydraulics
 - Low operational costs
- Hot, Chilled, and Plumbing Water Applications
- Electronics separated from the pump to prevent condensation and overheating
 - Worry free operation even at 14°F
- User-Friendly Interface
 - Four logically placed buttons
 - Intuitive interface
 - Easy to set and operate
- Pump Protection
 - Built-in dry-run protection
 - Stops pump if no water
 - Prevent damage/repairs
- High Visibility
 - Clear display
 - Large figures and symbols
 - Easy to view pump status
- More Control Options
 - Multiple inputs
 - Start-stop temp control
 - Pressure regulation
 - Advanced Modbus or BACnet controls
- **Multiple Materials of Construction**
 - **Cast Iron Volute for HVAC applications**
 - **Stainless Steel Volute for Plumbing applications**
- **Built-In Temperature Sensor for domestic hot water recirculation**

Flo-Setter II Valve

The Bell & Gossett Flo-Setter II Valve is a pressure independent flow limiting valve. The Flo-Setter II has an easily adjustable GPM dial which requires no instruments, charts or wheels to accurately set the maximum flow through a circuit with +/- 5% accuracy, regardless of pressure fluctuations in the system. Pairs well with modulating control valves since it limits maximum flow but allows for turndown of flow.

Features and Benefits

- Unique GPM dial is easy to set, no instruments, charts, or wheels needed.
- Maintains set flow rate withing +/- 5% regardless of pressure fluctuations.
- No minimum straight pipe lengths required before or after the valve
- Integrated pressure/temperature ports
- Integral valve shut-off with
- Saves pump energy and improves coil efficiency
