

CELLO PRODUCTS

May 6th, 2026

To: Our Valued U.S. Customers
Domestic Solder Increase

Due to the impact of the restructuring of the Section 232 copper tariffs, which have disproportionately affected our Canadian manufactured product as well as copper continuing to trade at record highs, we will be implementing a 10% list price increase, some items may be slightly more.

The effective date will be June 1st, 2026. New price sheets will be available early next thru your local representative or on the Cello website – www.celloproducts.com – under the our product page

Any questions or concerns feel free to contact myself or your local Cello Representative.

Thank you,
Frank Longenecker
Vice President – U.S. Sales
