May 12th, 2025

To: Crane®, Stockham®, Aloyco®, Duo Chek®, and Center Line® Customers

Re: International Emergency Economic Powers Act (IEPPA) – Tariffs

Dear Loyal Customers,

The President of the United States instructed the United States Trade Representative (USTR) to impose revised duties on imported Chinese products.

Effective May 14th, import duties on Chinese products are being reduced to 30% for the following 90 days. However, Crane, along with many importers, bore significant costs for materials received during the period of 145% import duties.

In response, Crane has updated our price lists, effective May 13, 2025, with the following % price decrease from current lists on the following impacted products, to account for the duty reductions.

List Price Decreases	
Crane® Bronze	-40.2%
Crane® Iron	-41.5%
Crane® Cast Steel	-31.5%
Center Line® Butterfly Valves	-36.1%
Duo Chek® Cast Iron Valves	-43.4%
Aloyco®	-34.9%
Stockham® Bronze	-36.9%
Stockham® Iron	-35.4%
Stockham® Cast Steel	-35.8%
Stockham® Butterfly Valves	-38.0%

Crane has also incorporated the additional decreases into quotes for non-price-list items.

Crane will pass through tariffs only when enacted by the US Government. The situation remains dynamic with a high probability of additional tariffs which may result in multiple adjustments.

We appreciate your patience and understanding and apologize for any difficulty or disruption this may cause.

Please know that should there be any changes in the regulations or any possible exemptions, we will discontinue the additional duty charge.

Sincerely,

Cody Beaman
Vice President & General Manager
Engineered Check, Pacific Valves, and NAVG
