

August 25, 2025

To Our Valued Customers:

Due to the recent implementation of copper tariffs, additional steel tariff, and various reciprocal tariffs based on country of origin, Legend is forced to initiate a new price increase effective September 29, 2025.

The increase varies by product content and manufacturing location. This has been a difficult analysis, and we have done everything possible to minimize the impact on our pricing overall and limit disruption to your business. This increase impacts many Legend products, but not all.

Product Category	Price Increase
Water Service Fittings	15.0%
Press Fittings	17.5%
No Lead Bronze Fittings	20.0%
Brass PEX Fittings	15.0%

Radiator Valves	0% or 10% depending on item
Various Other Items	Ranging 0% to 25%

AN **EMPLOYEE-
OWNED** COMPANY

Given the speed with which these new tariffs have been put into place, we find it necessary to hold order quantities to 1/12 of your annualized purchases. Legend will continue to monitor the situation and may have to respond to future tariffs. We appreciate your continued support through these uncertain times.

Sincerely,
Jeff Shreiner
VP of Sales
