

April 24, 2025

To Our Valued Customers:

At Legend, we strive to create the best overall experience when you entrust your business with us. Legend Valve has carefully approached tariff price increase decisions. We have gained a clearer understanding of the upcoming tariffs. As a result, we find it necessary to implement a second price increase to respond to these additional tariffs. This increase does not affect all Legend products but covers many. **The effective date for this price increase is May 3, 2025.** Legend Valve must also honor our 1/12th volume rule on this price increase.

All new and existing (open) backorders will be priced at the new tariff-based price. We apologize, but due to these market conditions, we are unable to offer any price protection or honor pre-tariff pricing on backorders. Below is a summary of many of the items increasing but not all. New price sheets will be available for download the week of April 28.

Product Category	Ave Inc	Ave Inc	
	19-Apr	3-May	Total
Gate, Check & Low Pressure Valves	2%	16%	18%
Ball Valves	6%	37%	43%

Please note that hydronic heat pipe price will also increase due to these tariffs. LegendFlex coils will increase 9%; sticks will increase 15%. Legend produced HyperFlex will be increased by 5%.

Legend will continue to monitor the situation and may have to respond to future tariffs. We appreciate your continued support through these uncertain times. Please contact your local sales representative or call us at 1-800-752-2082 and ask for Customer Service with any questions. We will be happy to assist you.

Sincerely,
 Jeff Shreiner
 VP of Sales
 Legend Valve & Fitting Inc.
