

Effective:
October 6, 2025

RE: PRICE INCREASE EFFECTIVE OCTOBER 6, 2025.

Dear Valued Customer,

The U.S. government recently enacted a 50% ad valorem duty on imports of semi-finished copper and copper-intensive derivative products under Section 232 of the Trade Expansion Act. Additionally Steel and Aluminum products were increased from 25% to 50%. This tariff applies to entries into the United States beginning August 1, 2025, and has created immediate and significant cost increases across our industry.

As a result of this and reciprocal tariff increases, Matco-Norca will be implementing a price increase on the affected products listed below. This adjustment will take effect on October 6, 2025.

We appreciate your understanding as these changes are driven by government policy and global market conditions beyond our control. Thank you for your continued partnership and support.

Sincerely,
The Matco-Norca Team
