**Your Pipeline to the Future!**

December 3, 2025

To: All Sales Reps

SUBJECT: GENERAL PRICE INCREASE

Good Morning:

After careful consideration, we have made the difficult decision to implement a general price increase of 5% for all Titan products, effective January 19<sup>th</sup>, 2026.

Despite our ongoing efforts to absorb rising costs through internal efficiencies and productivity gains, it is no longer possible to maintain current pricing without compromising the quality and reliability each of you expects from Titan.

Thank you for your loyalty and trust in Titan Flow Controls. We look forward to serving each of your customers for many years to come.

All valid quotations issued prior to the price increase will remain in effect until their expiration date.

Thank you for your attention to this matter,

Nancy  
V.P.
